# BORN TO BE FREE

**ONE LIFE : YOURS  
FREES ONE LIFE : A CHILD  
FROM ONE INJUSTICE : CHILD LABOUR  
IN ONE COUNTRY : INDIA  
OUR GOAL : STAMP OUT CHILD LABOUR**

Chennai  
Vellore  
Location of Born to Be Free

World Vision

### Set a child free – \$150

Many children in India are virtual slaves. Struggling parents mortgage their children into bonded labour to receive cash for family loans. Interest charged on the loan keeps compounding making it difficult to pay back the debt. Your gift will pay one family's debt giving a child the chance of freedom.

### Healthcare – \$10

Children in bonded labour are often physically or mentally abused. They work long hours in unhealthy conditions for little pay. It is a traumatic experience. Your gift will provide a health check-up and basic medicine for the child and their family.

### Job skills training for a child – \$68

This training provides job skills so the freed child can make choices about what future work they'd like to do. It means they have the chance to earn a decent living to support themselves and their family. Give a child – and the next generation – a future with hope.

### How can I help to stamp out child labour?

- Set a target for the funds you want to raise
- Take action to raise the funds (e.g. mufti day, car wash, quiz night, school dance, exchange your labour for money...)
- Fill in and post the form on the back of this brochure with your funds.

**How will I know that I've made a difference?**  
You'll receive a report and certificate acknowledging your contribution and outlining the impact your money will have.

### Children's Club for one year – \$32

Children's Clubs offer a place where children freed from bondage can come together and support one another to overcome their past and create hope for the future. Many children's clubs become strong advocates for child rights. Your gift strengthens these groups and adds to their effectiveness.

### Self Help Group (SHG) loan – \$300

SHGs are made up of mothers who aim to stop child labour before it even begins, through raising awareness of children's rights and working with families in need. Low interest SHG loans enable families to kick start new ways of improving the family income. This makes a big difference and your help makes it possible.

### Transit education for a child – \$68

Education is an unfulfilled dream for a child who has spent years in bonded labour instead of going to school. It is their only hope to rise above poverty and get a chance for a better life. Your gift will provide the transit education needed to catch up on years of missed schooling.
